

HEMORRHAGE TRAINING KIT - LAC

TrueClot® Hemorrhage Control Training Kits provide everything needed to simulate proper wound packing techniques using hemostatic gauze. The TrueClot® Wound Packing Task Trainers are realistic, durable and low-cost training props. When used together, TrueClot® Blood Simulant and Simulated Hemostatic Gauze will form realistic simulated blood clots.

FEATURES:

- Laceration with narrow wound channel and visible bleed point
- Durable silicone construction for extended training life
- Easy to clean with water and air dry
- Available in Dark and Light skin tones
