TRUECLOT®

TRUECLOT® ADVANCED BLEEDING CONTROL TRAINING KIT (10-20 STUDENTS)

The TrueClot® Advanced Bleeding Control Training Kit is designed to provide students with a simple, realistic, and hands on way to practice essential bleeding control skills. The kit uses TrueClot® Blood Simulant with dynamic simulated clotting, simulated hemostatic gauze, and TrueClot® wound packing and tourniquet trainers to teach the basics of bleeding control. Students can see and feel how proper wound packing stops bleeding and practice tourniquet placement and application helping them to build muscle memory and confidence. This kit is intended for a class size of 10-20 beginner to intermediate level students to learn bleeding control techniques in a classroom setting.
